

## THE MOST COMPLETE RANGE WORLDWIDE

**From DN 25 (1") to DN 1050 (42") in 2/3 or 5 convolutions**

- **PLAIN BELLOWS:**  
stainless steel rings for external  
reinforcement (type 207)

- Thanks to their great flexibility, our PTFE bellows can be used as expansion units in pipelines or as protection units for equipment in brittle materials (glass, graphite, etc).

- **COMPENSATORS:**  
full stainless steel compensators lined  
PTFE (type 283).

- Designed for very high pressure (up to 18 bars).

- **REINFORCED BELLOWS (type 227)**

- Type 227 bellows are reinforced by stainless steel rings and stainless steel caps, making them suitable for high pressure service.

- **BELLOWS FOR VACUUM SERVICE:**  
internal rings for vacuum resistance

- Our bellows are available to be used under vacuum up to 180° C (V range).
